

To whom it may concern:

I have been asked to write a letter of recommendation for Edna Childres. Now I am the guy in the family and I would not be the first one to write a letter for anyone unless something truly happened.

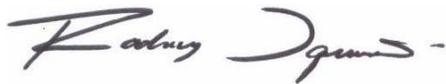

Our son was born on Feb 5th, 2009 my wife and I by April were pulling our hair out and at each others throats every night with a Colicky child. I tried everything along with my wife to get the kid to quite down and bring sanity back to our household. We also have a three year old that had been an Angel until Jake arrived and then felt lost for a few months. This of course just added fuel to the fire.

I spent hours in the rocking chair and time in my car at midnight driving the child around to get him to sleep only to wake back up when I got home. We had reached the end of the rope completely. My younger brother suggested we get a night nurse to help bring us back. My wife started the research and found Edna.

Edna arrived on a Saturday afternoon. The anticipation of waiting for her to see if we were good enough of a family reminded me of the Disney Marry Poppin's movie. Edna was charming and had our baby Jake calm within 10 minutes of her arrival. My wife and I sat and listened for the next few hours and as she left could not wait for her return the following Monday evening.

For the next 6 weeks I watched as my house hold dynamics returned to a sense of calm. My child Jake now sleeps through the night and is the ray of sunshine along with his older sister in our eyes. I can't say enough about Edna she really is the best at what she does and would use her again in a split second

Happy father of two wonderful children, Thanks again Edna
